The Editor,  
"Mail and Empire",  
Toronto.

Dear Sir:

Will you allow me to draw attention to a slip in your very kind editorial which appeared this morning on the "University Base Hospital"? The funds for the Hospital are now consolidated and contributions may be sent either to Dr. Primrose, instead of Dr. Thistle as you have it, or to Mrs. E. M. G. Starr. Your editorial will, I am sure, do a great deal of good and have much influence. Again thanking you for it,

I am,

Yours sincerely,

President.

Dear Dr. Falconer:

I am very sorry that in The Mail and Empire's editorial reference to the University Base Hospital intending subscribers were misdirected as to whom to communicate with on the matter. It is quite unaccountable to me how the name of Dr. Thistle got into the copy when that of Dr. Primrose was surely dictated, and, stranger still, that I missed the error when I was looking over the proof. I hope that no inconvenience has been caused by it, and that your letter, published in our issue of today, will be seen and noted by everybody concerned.

Yours very sincerely,

*C. A. G. G. G.*

Editor of The Mail and Empire.
